

Franz Mustermann

Senior Software Engineer from Supervalley

Zurich, Switzerland

About Me

Experienced in designing, building, and maintaining scalable software systems. Skilled in leading development teams, mentoring junior developers, and driving technical decisions. Brings deep expertise in modern programming languages, architecture patterns, and software lifecycle best practices to deliver reliable and high-quality code.

Experience Overview

10+ years of experience (2011 - 2025)

Work Experience

Frontend Engineer at Tesla (2022 - today, Berlin)

Built and optimized responsive web applications using React and TypeScript, contributing to Tesla's customer-facing platforms. Collaborated with cross-functional teams to enhance UI performance, accessibility, and user experience.

Skills

JavaScript, TypeScript, Angular

Languages

German (Native), English (Advanced), French (Intermediate), Portuguese (Beginner)

References

Marcus Taylor (Team Lead, Digital Campaigns)

"Working with the engineer was an absolute game changer. Their attention to detail and ability to translate complex requirements into elegant solutions exceeded our expectations. Our campaign automation runs smoother than ever."

Elena Fischer (Product Owner, Holudu)

"The engineer brought a rare mix of technical excellence and user empathy. Thanks to their contributions, our checkout flow is not only faster but also more intuitive. The entire team noticed the difference."

Quote

"Code is written for humans first, machines second. Mastery means never forgetting that."
